## LOCAL NEWS.

TUESDAY EVENING, SEPTEMBER 24.

MALICIOUS ATTEMPT. - An unsuccessful attempt was made on the night of Monday, the 16th inst., just previous to the return from Carlin's Springs of the train of cars having the excursion party of the Relief Hook and Ladder Company on board, to injure the locomotive, the particulars of which would have been published at the time in the Gazette had it not been imagined by officers of the Alexandria, Loudoun and Hampshire Railroad, that the publication of such an account might possibly prevent the arrest and punishment of the guilty party, whose track, it was supposed, they had discovered. The cellar on the main rod of the engine, two set screws, and two nuts of the strap on the side rod were removed, as were also the coupling pins between the tender and baggage car, and between the baggage and passenger cars. The loss of the pins was discovered and provided against by the conductor, Capt. M. L. Price, before the train left the Springs, and when it had proceeded but a short distance from there the same gentleman discovered a rock and a cross tie upon the track, but as the obstructions were in such a position as not likely to throw the train from the track the engine was not reversed and passed them safely. It is though that the intention of the perpetrator was to cause a reversion of the engine, by which, in all probability, it would have been seriously injured. The portions of the engine removed, as also the coupling pins and a munkey wrench were found the next day by Capt. Price and the engine driver, near the spot where the train was standing when they were removed.

THE PROPOSED POTOMAC RIVER STEAMBOAT LINE. - The committee appointed to solicit subscriptions and report a plan of organization for the purpose of forming a stock company to establish a line of steamers upon the Potomac and its tributaries, met yesterday afternoon, in Washington, and the following specifications were submitted and adopted:

"1. This Potomac Company shall be known and designated as the Potomac Transportation Company. 2. The capital stock of this Company shall be two hundred thousand dollars, represented by four thousand shares of fifty dollars each. Each share will be entitled to one vote at all the meetings of the stockholders. 3. At the time of subscription one dollar shall be paid for each share subscribed; the rest to be called for in monthly installments of not exceeding twenty dollars each. 4. The Company confidently believe that forty per cent of the capital stock will construct and equip all the boats necessary for this enterprise. This opinion rests upon the most reliable estimates, and responsible offers to furnish the boats. 5. With the shares of this Company in the hands of the active business men of Washinton, and the farmers along the Potomac exerting their influence to augment its business, and with a line to draw produce from and supplies to the company, it is believed that at reasonable rates the business will pay liberal dividends on its entire capital stock. 6. Within thirty days after the subscription to the stock one steamer will be on the route, another within sixty days.

Those engaged in this enterprised appear to be making it an exclusively Washington un-dertaking for the benefit of the trade and business of that city. It is stated in the National Intelligencer, that it is intended ultimately to have the larger boats of the line extend to Norfolk and Baltimore; and, also, that the Patuxent and Rappahannock rivers shall be brought into the scope of the opearations of the company. For three or four considerable rivers emptying into the Potomac, small boats will communicate with the main line.

RADICAL AFFAIRS .- The executive commitee of the different wards of the city are to meet to-night in Beulah Chapel-a colored Baptist Church on Washington, between Duke and Wolfe streets--for the purpose of appointing a time for a Mass Convention to nominate a candidate for the proposed State Constitutional Convention. The Washington correpondent of the New York Herald says:

"I learn from Richmond, this evening, that Gov. Peirpoint is still industriously stumping the State for the nomination of the republican party for the next Gubernatorial term. He left Richmond this morning for Bedford and wing of the party, or with the other wing, now represented by ex-officers and soldiers of the U. S. Army. Gen. H. H. Wells, of Alexandria, formerly of Detroit, is the choice of the latter wing of the party, and will be President of the Convention which meets in Richmond on Wednesday next, if he is present, and the nominee of his wing of the party for Governor when the nominating convention shall assemble. In the other wing of the party the contest for the nomination is between Hunnicutt, of Richmond, and Hawxhurst, of Alexandria.'

C. & O. CANAL.—Collector Hollingshead, of the C. & O. Canal, has lately made an inspection of that work as far as Senaca level, and found the feed throughs at No. 1 and No. 2 to be considerably out of repair, and the water in the river lower than for years past, and expresses the opinion that unless the feeders of the canal are put in proper repair those relying on the Georgetown level for a supply of water at all times for milling purposes, will be disappointed, as the mills will be subject to constant interruption that a sufficiency of water may be obtained for navigation purposes.

THE REGATTA POSTPONED. -Owing to the inability of certain owners of yachts to enter the vessels designed to participate in the coming regatta by to-morrow, the time announced for attacking and whipping in the street a for the regatta to take place, it was decided, child of Mrs. Mills. for the regatta to take place, it was decided, at a recent meeting of the National Yacht Club of Washington, to postpone the race until the 1st of October.

Among the boats entered as probably winners of prize are the Robert E. Lee, Catharine Coombs, and Flying Cloud, from this city; the Little Kate, from Baltimore, and the General Grant, from Washington.

ALEXANDRIA CANAL AQUEDUCT. - A letter from A. B. Burton & Co., of Philadelphia, contractors for building the Aqueduct of the Alexandria Canal, at Georgetown, informs the lessees of the canal that most of the timber to be used in the construction of the work has

been sawed at saw mills in Pennsylvania, and that some of it will arrive in Georgetown before the 1st of October; that the iron castings have nearly all been completed, and the necessary quantity of iron rolled at the iron works on the Schuylkill, and the requisite number of bolts and nuts have been cut at Wilmington. By the first of next February-allowing full time for accidental delays or hindrance from the weather-the Aqueduct will be erected and ready to receive water, and next Spring, upon the opening of navigation, Alexandria will once more be the port from which the immense wealth of the Cumberland coal regions will find its exit to the markets of the world, and the valuable space in Georgetown, now occupied as coal depots, be made available for the use of capitalists, who may erect thereon large manufactories, to be workedby the water power derived from the canal, and the benefits accuring from which, to Georgetown, will be so apparent that even the few in that city who own property above the site of the Aqueduct,

be reconciled to its completion. For the gratification of the Georgetown people it is mentioned that in the plan for the reconstruction of the Aqueduct is embraced space sufficient for a permanent railroad and carriage bridge across the Potomac.

and are at present opposed to its erection, wil

> AN ALEXANDRIA INVENTION .- An invention of considerable utility in the grain business, designed to insure the proper fastening of grain bags, invented by Mr. Joseph Grimes, of this city, has been patented by Mr. F. A. Reid, of the firm of M. Eldridge & Co., also of this city: It is called the bag fastener, and it is the intention of the patentee to have manufactured of them at once five thousand for use in their shipments of grain.
